

The continued contest between the Mexican grants, at the city of Sacramento, has at last broken out into violent disorder, and marked its movement with murder, arson, and in every kind of lawless violence. The results are deeply deplored. "The blood shed in this fratricidal contest, will leave a dark stain upon the history which would else have been unparalleled in our annals."

The New York Tribune says: "The first offence, so far as we can learn from our dispatches, was committed by the squatter party, in attempting forcibly to release from the custody of the legal authorities two of their number who had been arrested. They thus, in the outset, placed themselves in open hostility to the Law. The full particulars of the lamentable conflict, in which the Mayor and Assessor of Sacramento and two of the squatter leaders were killed, have not reached us, but the inference at present is that the latter were the aggressors. We know enough of the reckless character of a part of the population of California, to fear that there is too much truth in the alarming rumor which reached San Francisco just as the steamer was leaving. Our only hope is that the Volunteer and Fire Companies from the latter city and the U. S. troops from Benicia arrived in time to overawe the rioters, rescue the city and compel order. The news of the miners having come down to join the squatters, is most likely false. The first placers are thirty, and the first large community of miners fifty miles distant, and they could not have arrived in the time specified. Besides the present encouraging prospects of the gold region, there are few who would leave their pickings of the yellow dust, to go 'prospecting' for ounce lumps of cold lead."

"Considering the uncertain tenure of most of the California grants, and especially that which purports to cover the ground now occupied by Sacramento City, the squatters have a show of right in their claims, if they do not possess the right itself. The question, however, is to be decided by a Special Commission, established by the United States, and the prompt admission of California, on her first demand, would, no doubt, by hastening the establishment of such a tribunal, have prevented the effusion of blood. As it is, we can but hope that the supremacy of Law has been re-asserted and that the next mail from California will bring no further account of anarchy and violence."

News from Mariposa Mines.—William A. Jackson, Esq., this morning arrived from the mining establishment of the Mariposa Mining Company, where operations have been very successfully commenced in the quartz formation in this region. The vein has been opened and explored by this company for the distance of two or three hundred feet. It is from six to eight feet wide. Explorations have been made near the centre of the vein to the depth of thirty feet, and ore has increased in richness to that depth, showing more of the decomposed description and shale formation. The course of the vein has been laid open and examined on the surface, and to the depth of eighteen feet. It presents the appearance of a regular ledge.

The company have projected a tunnel from a ravine to the lead of the vein, so as to cut it at the depth of one hundred feet from the surface, which will give the company the control of the whole lode ore through all seasons of the year.

FORREST DIVORCE CASE.—Mrs. Forrest has lately brought action against Mr. Forrest in the Supreme Court of New York. Mrs. F. asks for a divorce on grounds similar to those brought against her by Mr. Forrest. The New York Herald publishes her statement in full. It is a rich affair. The Herald says editorially:

In giving the report of the charges brought by Mrs. Forrest, and which involve the characters of several different females, we have left out the names of the parties implicated. They will come before the court, however, when the evidence connected with the charges shall be demanded. Some of these females are very respectably connected—some unmarried, and have been usually deemed ornaments to the society in which they moved. Others are of various stations in the community, and in humble spheres of life. All of them will be brought before the public at an early day, and will be obliged to bear the investigation which this distressing marital feud has excited.

I. O. O. F. SOCIAL RE-UNION.—Last night, the Odd Fellows of Cincinnati gave to the "Right Worthy Grand Lodge of the United States," I. O. O. F., a grand supper. The meeting was a social re-union, and was much enjoyed by all present. The attendance was very satisfactory. The affair came off at the Masonic Hall. The luxuries on the table were incomparably fine; and were placed there by Mrs. Louderback and Henry Alma. We were informed that the cost of the entertainment was near \$2,000. Every thing passed off in excellent order. Good for the Odd Fellows of Cincinnati. They are whole-souled men, and true. Cin. Gaz.

[From the St. Louis Republican, 23d.]  
Important News from Sacramento—The California Emigration.  
By the steamer Robt Fulton, from the Missouri river, yesterday, we received the Frontier Guardian Extra of the 14th. It announces the arrival of the United States mail from Salt Lake city, with dates to the 3d of August. This mail arrived on the 12th inst., in charge of Mr. John Greene. Mr. G. had several mules stolen from him by the Indians, just before he reached Fort Laramie, leaving him with only one horse and a heavy mail.

The Guardian publishes a letter from Brigham Young, and other leaders of the Church, addressed to Mr. Orson Hyde. It is dated on the 28th July, and represents that Salt Lake city has been crowded with emigrants since the 20th May. The letter says:

"The emigration poured in here in such numbers that they raised provisions to a very high price. Flour sold for one dollar per pound, which was sufficient to induce some of our speculators to sell their last morsel, and go without. Harvest commenced with the 4th of July and has continued until the present. Some of the earliest pieces of wheat were injured by a frost which occurred when it was in the blow. Since harvest flour has been selling for twenty-five dollars per hundred. The amount of grain sowed last fall and spring was immense. The great majority of the fall grain has produced an excellent crop, and the spring crops look remarkably well. In consequence of the great amount of snow on the mountains, many of our rivers overflowed their banks, causing considerable damage to crops, &c. The Jordan was several feet higher than it has been known before, and destroyed a great portion of the crops below the bridge. The crops in Weber, Utah and Tule counties are reported to be excellent. Brother Morley, who has lately visited us from San Pete, gives us flattering accounts of the prospects for an abundant harvest."

The Deseret News says that on the 1st of July, they received a long letter from John W. Jones, Captain of the Aquawaka company of emigrants, giving the particulars of an Indian fight at Yellow Creek, eleven miles West of the Bear river, on the 27th of June. The Utah Indians burned six lodges of the Snake Indians, at the place named—killing seven men and four squaws, and captured five Indians and forty horses. While contending about the division of the spoils, they killed all the horses. The prisoners were for sale. This attack was in consequence of a previous one, in which the Snakes killed some of the Utahs. The emigrants commenced arriving in the Valley on the 20th May, and then there was a continual rush. The mail was carried from Kanabville to Salt Lake city, in 32 days, mules and horses in good condition. Potatoes were dug in Salt Lake city July 4th, measuring six inches in circumference. Carrots had been pulled measuring sixteen inches in length. On the 17th of June a heavy frost was experienced in the Valley, which destroyed many tender vegetables. On the night of the 14th of June, considerable rain fell in the Valley.

Counterfeits.—Many of the emigrants attempted to pass counterfeit coin in the Valley, which the people there neither wish to buy or sell, and advised them to keep their bogus out of sight. Also, bogus gold dust has been offered, consisting only of copper.

The main California emigration, passed through the Valley about the middle of July.

Jenny Lind Coming.—A gentleman from New York City has been here for some days past, as agent for Mr. Barnum, making inquiries for a suitable Hall for the "nightingale." Negotiations have been pending for a lease of the new buildings on Fourth between Walnut and Vine. It secured it is the intention of the agent, after the Hall has been occupied by Jenny Lind in a series of Concerts, to change the structure into a shape suitable for a new Museum on Barnum's plan in New York. "Aching of Beauty, is a Joy Forever."  
Why will people endure pimples on the "human face divine," or eruptions of any kind, when it is a fact well known, that "Dr. Guy's Yellow Dock and Sarsaparilla," cleanses the skin from all impurity, removing Pimples, Sores, and Blisters, leaving the affected parts as healthy, smooth and soft as the flesh of a babe. It is really priceless to all that wish the rosy beauty of childhood.

It causes all sores and poisonous wounds to discharge all infected matter, and eradicates every impurity from the system. It does its work mildly, but effectually, giving consciousness and blooming health, in the place of ugliness and soul sickening disease.

# CINCINNATI MARKET.

Sept. 30th.

Flour.—There was considerable enquiry for Flour Saturday afternoon, and 500 bbls sold at \$3 35 and 1000 at \$3 60. The market is dull this morning and we have not a sale to report. Lots at canal are held at \$3 65; 3 60 offered. Grain.—The market for Wheat remains firm at 70c. Corn is also firm and in good demand with sales of 2000 bush at 47c, and 3000 to arrive in ten days at 50c—all in bulk. Oats have given way under increased supplies and the market is now heavy at 40c for lots from the river and canal, and 43c from wagons. Hominy sells at \$1 25 per bush.

Sugar this morning continues very firm, the sales being confined to retail trade. Coffee.—A sale of 35 bags at 13c was the only one we have heard of. Molasses.—We notice an increased inquiry in the market, with a somewhat better feeling. Sales of 40 bbls at 34c, and 56 bbls same at 35c.

The Provision market is without movement, and we have no sales to report. Whiskey.—The market opened this morning at a further advance, with light receipts. Sales of 100 bbls from river at 18c; from Miami canal at 23c.

Cincinnati, Oct. 1st.

Flour and Grain.—The sales of flour this morning comprises 41,169 and 50 bbls at \$3 60, and 75 do at 3 62. In Grain we hear of no transactions. Coffee.—A sale of 175 bags Rio at 13c. The demand is better this morning. Provisions.—The sales are confined to small lots for the supply of the retail trade. Whiskey.—The market opened steady this morning with a good demand. Sales of 125 bbls from river at 23c. Sugar.—There is a good demand at full rates. Sales of 24 bbls at 64c.

Cheese.—Sales of 32 boxes at 6c; the demand is moderate.

Tobacco.—A sale of 20 boxes No. 2 Va. was made at 18c. Molasses.—There is a good demand at full prices. We quote at 34c35c; the latter the prevailing rate.

# Cincinnati Cattle Market.

Sept. 24.

The supply of Beef Cattle continues ample, and prices unchanged. There is but little strictly prime arriving and such continues to bring \$5; but the rates for inferior to good is \$5.00 to \$5.50. There is no change in Sheep. Hogs are higher and sold the past week at 2,75 to 2,80 gross.

# Baltimore Cattle Market.

Sept. 25, 2 P. M.

BEEF CATTLE.—The offerings at the scales on Monday reached 1340 head, 680 of which were driven to Philadelphia, and the balance sold to the city trade at prices ranging from \$2.25 to \$3.25 per 100 lbs. on the hoof, equal to \$4.50 and \$6 net, and averaging \$2.75 to \$6.

HOGS.—Market bare—firm at \$5.50, to \$6.

BALLOON ASCENSION.—SNOW STORM On Saturday afternoon Joshua Pussey, ascended with a balloon from Reading, Pennsylvania. He started at half-past four o'clock, and descended at Haddington, a few miles West of the Schuylkill river, about half-past seven. He says that during his voyage, and when at an altitude of two miles, he was overtaken in a snow storm, and what was strange to him, and will perhaps be so to everybody, was the fact that the snow flakes ascended.

# The Charms of Home.

DEPENDS so much upon the possession of health, that nothing having its preservation in view should be overlooked or neglected. All persons, old and young, male and female, should preserve, cherish, and guard their health, and at the first symptoms and first approach of ill health, use promptly the proper remedy.

# The Genuine Shaker Sarsaparilla.

As PREPARED BY DR. S. D. HOWE, is a new medicine, now offered for the first time. Its well established reputation has been fairly gained by its numerous remarkable cures during many years of constant use throughout New Hampshire and New York. The Medical profession generally in the Eastern States now recommend, and use in their private practice, this valuable medicine, for all diseases arising from impurity of blood.

# Shaker Sarsaparilla.

PREPARED BY DR. S. D. HOWE, is the most effectual medicine for all diseases of the liver, Dyspepsia, Jaundice, and all Bilious Disorders. This valuable FAMILY MEDICINE.

Is prepared with great care, and is PURELY VEGETABLE. Its power over the above diseases is not excelled, if equalled by any other preparation in the United States, as numerous cures attest. IN MANY CASES AFTER SKILLFUL PHYSICIANS HAVE FAILED.

A critical case cured by the use of Dr. Howe's Sarsaparilla, and certified by Dr. S. Jackson, a distinguished Physician in Indiana. Such testimony is worth more than a column of ordinary advertisements:

COLUMBIA, IND., June 10, 1850.

Dr. S. D. Howe.—Dear Sir: I have been afflicted with a Cough for the last three or four years, which has nearly ruined me to my grave, despite of all the medical aid from my family physician. I had despaired of ever again being restored to health. Six months ago I noticed the advertisement of your Shaker Sarsaparilla, and I immediately sent and procured one bottle, and I began speedily to improve, and I obtained another bottle, and the result of taking two bottles of Dr. S. D. Howe's Shaker Sarsaparilla has caused me to say to you, and every one whom it may concern, that I am entirely relieved from all cough and pain in the breast.

MRS. N. GRAVES.

The great success which has attended the use of Dr. S. D. Howe's Shaker Sarsaparilla since its introduction into the Western States, has established its character in this section of country.

This is the only Sarsaparilla that acts on the Liver, Kidneys and Blood at the same time, and hence its singular efficacy and success.—Be sure and get Dr. S. D. Howe's Shaker Sarsaparilla, and take it, with the exception of a quart bottle of S. D. bottle or 6 bottles for \$5.

For sale by MAGNET & NARET, Gallipolis, D. Reese, Pomeroy; E. R. Perkins and Götting & Howe, Marietta; and by Dr. S. D. HOWE & CO., No. 1 College Hall, Walnut street, 2 doors above 4th, Cincinnati, Ohio.

# DR. GUY'SOTT'S

Extract of Yellow Dock and Sarsaparilla.

# DR. GUY'SOTT'S IMPROVED EXTRACT OF YELLOW DOCK AND SARSAPARILLA.

DR. GUY'SOTT'S IMPROVED EXTRACT OF YELLOW DOCK AND SARSAPARILLA, put up in the largest sized bottles contains more of the pure Extract of Yellow Dock and Sarsaparilla than any other preparation extant which is cheaply combined with the Extract of Wild Cherry, and the Balsam of Fir, thus making the remedy more thoroughly efficient than any other Sarsaparilla before the public. At the same time it is perfectly free from all mineral poisons, which cannot be sold as any other of the Sarsaparilla compounds. The invalid should beware of poisonous Mercury, Iron, Quinine, Potash, Iodine, Sulphur, Arsenic, and many other mineral and metallic poisons, which are often used in the preparation of most of the Sarsaparilla and Panacea of the day. Guy'sott's Compound Extract of Yellow Dock and Sarsaparilla does not contain a particle of these substances, as any one can easily ascertain by applying the necessary tests.

These poisons may occasionally remove disease, but they so vitiate the blood, and so completely impregnate the whole system with their baneful effects, that the first cold, or the first attack of rheumatism, or any other excruciating torture, and renders another cure almost impossible and hopeless. Let all poisonous Sarsaparilla preparations alone, and use Guy'sott's Improved Extract of Yellow Dock and Sarsaparilla, which is thoroughly efficacious, perfectly harmless, and purely vegetable. All kinds of disease yields to its genial influence.

# CURES.

Scrofula, Cancerous Tumors, Cutaneous Eruptions, Erysipelas, Bites, Pustules, or Pimples on the Face, Chronic Sore Eyes, Tetters, Scald Head, Rheumatism, Enlargement or Pains in the Bones or Joints, old and stubborn Ulcers, Fester and Boils, Discharge from the Glands, Blisters, Syphilis, Symptoms, Lumbago, Dropsy, Dyspepsia, Jaundice, Constipation, Salt Rheum, Affections of the Kidneys and Diseases arising from medicinal uses of Mercury, Ministration Sore Throat, Weakness of the Chest, Pulmonary Affections, and all other diseases tending towards Consumption, Liver Complaint, Female Irregularities, and Complaints, Sick and Nervous Headache, General Debility, Loss of Appetite, and Sleep, Night Sweats, Pains in the Side and Shoulders, Exposure of Impudence in Life, Chronic Constitutional Disorders, and as a Spring and Fall Purifier of the Blood, and General Tonic for the System, it is unrivaled.

A Case of Ulcerated Limbs of sixteen years standing.

The following is an extract of a letter, dated March 27, 1850, from E. B. Perkins, M. D., highly respectable physician of Marietta, Ohio:

JOHN PARK.—Dear Sir: I have under my care a young woman who, for sixteen years, has been suffering from Ulcerated Limbs, and whose case has been pronounced hopeless by three of our best physicians. I took her into my family, and have used Guy'sott's Yellow Dock and Sarsaparilla freely, and am confident that the Yellow Dock and Sarsaparilla will effect a permanent cure.
